All disputed lots must be returned intact in the condition received. The following lots may not be returned without prior approval: lots from buyers who have had the opportunity to examine them before the sale; lots described as having defects or faults may not be returned because of faults; and, lots in which the buyer has bid more than double our estimate. No illustrated lot may be returned because of centering, margins, or other factors shown in the illustrations.

### Authenticity

13. All lots are sold as genuine, but should any lot be proved otherwise by written opinion of any responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided we are notified in writing within 14 days from date of sale that an opinion is being sought. If claim is not made within this period, no lots are returnable for any reason at any time. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$100.00. In the event an item is proved "not as described" it is returnable for a full refund. Any lot which has a certificate dated within the last five years is sold in accordance with the certificate and is not returnable for any reason including an opinion obtained in a new certificate after the sale.

LOT	U.S. COINS		VALUE	
<b>Colonial Coins</b>				
1	(8) Mostly Geo II & Geo III British Halfpennies 1740s to 1780s, plus a 1723 Woods Hibernia, & counterfeit USA Bar Cent. Most details are discernable but these are excavated coins so expect corrosion and other impairments.	EST	110-135	SE
2	(3) Diff incl 1773 Virginia Halfpenny VG, 1760 Voce Populi VG, & 1787 Fugio Cent "States United" G.	EST	160-200	SE
3	(4) Connecticut (there is one Vermont) low grade but readable.	EST	75-100	SE
4	(4) New Jersey's 1786 // 1787 discernable but expect corrosion & other impairments.	EST	75-100	SE
<b>Half Cents</b>				
5	1795 Lettered Edge, Punctuated Date abt F detail but the coin was excavated and shows moderate corrosion. However, all design elements show plainly.	EST P	300-400	HWC-SE
6	1804 Plain 4; Stemless VF even light brown color.	EST	125-150	SE
7	1804 "Spiked Chin" variety that is quite popular. ANACS XF45 Details Corroded. The coin is an even brown color and the corrosion is confined to the rev and is only evident upon magnification. Worth inspecting.	EST P	240-300	SE
8	1835 Classic Head near XF detail and appealing.	EST	68-80	SE
9	1850 XF or nearly so and original. The 1850 has experienced significant price escalation in the past decade as its true scarcity became better known.	EST P	250-300	SE
10	1853 Coronet Head XF even brown and very attractive.	EST P	68-80	SE
11	1854 Coronet Head AU+ arguably a low-grade Unc. Even brown in color and quite attractive.	EST P	170-220	SE
12	1804 Plain 4; Stemless F (lt. planchet damage) & 1806 Small 6; Stemless F (lt. obv scrs).	EST	120-145	SE
13	(3) Diff Half-Cent Types incl 1807 Draped Bust VG w/ lt corrosion, 1833 Classic Head XF w/ lt. obv & rev graffiti, & 1849 Coronet XF w/ neat 90-degree die rotation.	EST	150-180	SE
14	(4) Diff Classic Heads incl 1826, 1828 (13*), 1833, & 1834. Coins range from F to VF+ but expect a few imperfections.	EST	160-200	SE
<b>Large Cents</b>				
15	1798 2nd Hair Style F even dark brown w/ a few scattered marks.	EST P	300-360	SE
16	1803 S-255 F. Lovely chocolate brown w/ no problems.	EST	200-250	SE
17	1814 Crosslet 4 S-294 G+ nice even chocolate brown.	EST	100-125	SE
18	1833 N1 XF even dark brown and quite appealing.	EST	80-110	SE
19	1839 9 over 6 Newcomb 1b Fine+. Nice example of this scarce variety w/ even brown color. There is no evidence of the obv die crack going from the rim thru stars 3 and 4 to the bridge of the nose so this must be an early die state of this issue. The overdate was caused by the 9 in the date first being struck upside-down. By far the scarcest of the five varieties of 1839 large cents. Be sure to review!	EST P	575-750	HWC-SE
20	(7) Diff incl 1818, 1826, 1827, 1832, 1843, 1845, & 1846 grades VG to VF. Expect a few impairments on some.	EST	110-135	SE
21	(8) Diff incl 1822, 1826, 1829, 1830, 1835, 1840, 1844, & 1845 grades VG to VF a few w/ lt. impairments but others quite nice. Needs inspection.	EST	130-155	SE
22	Meghrig 2-ring binder w/ Large Cent pages 1823-57 w/ (40) diff, marked retail \$1050, expect some worn and/or cleaned, avg circ to F-VF	EST	350-450	B
<b>Indian Cents</b>				
23	1867 XF Detail but the planchet is porous from mild corrosion.	EST	70-90	SE
24	1871 AU. This coin has a burnt-orange color which likely resulted from being dipped or lightly cleaned long ago. But it is still very attractive with full detail and would fit nicely in a high grade set. The 1871 issue is just as difficult to find in high grade as the more-heralded 1872, so this may be an opportunity for the Indian Cent enthusiast. Be sure to inspect this one.	EST P	280-350	SE
25	1872 VF Detail but this one is heavily corroded. It is fully discernable for a scarce issue, and can fill a hole in your folder or album.	EST	50-65	SE
26	1877 VF perhaps better. Nice brown original. Lovely coin!	EST P	900-1,150	HWC-SE
27	(46) Diff 1857 // 1909 circ grades in a Whit folder. Earlies G to VF, later a bit better on the whole. Highlights incl 1867 VG & 1908-S F. Worth inspecting.	EST	170-220	SE
<b>Lincoln Cents</b>				
28	1909-S VF+ mottled brown color.	EST	70-85	SE

LOT	U.S. COINS		VALUE	
29	1914-D Fine perhaps cleaned long ago now nicely recolored.	EST P	100-125	SE
30	1931-S AU+ Brown. Nice even color.	EST	74-95	SE
31	Lot contains (18) 1909 VDB & (50) 1910 wide grade range (VG to BU) w/ most in the upper end. Quite a few nice coins in the mix. Inspect!	EST	120-145	B
32	(88) Diff in a virtually complete set 1909 // 1940-S housed in a Whitman 9405 album missing only the keys 1909-S VDB, & 1914-D. The 1922-D No D is the "weak D" variety that does not have the strong rev. It is certified ANACS Good-4. Most other earlyies are F or better with sev uncirculated; the later (post-1922) are mostly XF/AU coins. A few slightly impaired here and there but this is still one of the best Lincoln Cent sets we've handled in some time. Well worth inspection.	EST	550-700	B
33	Binder w/ (299) Lincoln Cents, in 2x2s or flips, marked by owner w/ year, condition and retail values totaling abt \$2600; mostly 1909 to 1950 plus a few later incl 1971 10% shift strike error; incl (4) 09 VDB and numerous 1943 Steels, VG to UNC, minor duplication	EST	800-1,000	B
<b>1c Groups / Collections</b>

<b>Three Cent Pieces</b>				
36	1852 Silver (Type 1) easy XF perhaps better. Possibly dipped at one time still very nice.	EST P	80-110	SE
<b>Shield Nickels</b>				
37	1868 MS60+ well-struck and very attractive.	EST P	130-160	SE
38	(4) Diff incl 1866 Rays VG+, 1869 XF, 1882 XF+, & 1883 VF w/ multiple die cracks. Nice group!	EST	125-150	SE
<b>Liberty Nickels</b>				
39	1885 probably VF detail but once heavily corroded. A restoration effort has been made on the coin. Inspection recommended.	EST	150-240	SE
40	1886 AG. Perfectly original, but the obv is a little weak on the right side. The rev rim is almost complete. A hole-filler, but a nice one.	EST	64-80	SE
41	1888 AU detail. Small obv stain and a few small rev scrs by the top of the V. Still nice.	EST	100-125	SE
42	(8) Diff incl 1883 NC AU, 1886 thru 1889 all AG/G, 1900 F+, 1901 AU, & 1904 XF.	EST	140-165	SE
43	(8) Diff in a straight run 1905 // 1912 all nice XF/AU coins. Though cheap, better condition Liberty Nickels aren't encountered that often.	EST	185-220	SE
<b>Buffalo Nickels</b>				
44	(63) Diff in a virtually complete set 1913 // 1938-D missing only 1913-S Type 2. Largely VG to VF coins some less and some better incl many commons XF/AU. A much better set than that typically encountered.	EST	450-600	B
45	Binder w/ (95) in flips or 2x2s, marked by owner w/ year, condition and retail prices totaling abt \$800, ranging from 1913 (both types) to 1938-D, conditions from G to AU, minor duplication	EST	300-400	A
<b>Jefferson Nickels</b>				
46	1943-D & 1944-D both PCGS MS66 Full Steps. The 44-D is toned in some areas. Bonus: (2) 1946 Booker T. Washington halves XF & Unc.	EST	70-84	SE
47	Binder w/ (159) in flips or 2x2s, owner marked by year and condition, retail total abt \$400; ranging from 1938 to 1974-S, incl (4) 1939-D and (32) War Nickels; ranges from F to UNC, plus (5) modern proofs, light duplication	EST	150-200	A
<b>5c Groups / Collections</b>				
48	Binder w/ (67) in 2x2s or flips, owner marked w/ year, type, condition and total retail values abt \$600; incl (18) Shield 1866-82 and (49) Liberty 1883 (both types) to 1912-D; conditions Fair to XF w/ minor duplication	EST	250-300	A
<b>Half Dimes</b>				
49	1837 Bust w/ Large 5c. XF+ showing a bit of weakness in the normal spots. Nice type coin.	EST P	145-170	SE
50	1838-O No Stars perhaps F+ by overall wear but the coin has a heavy mark on Liberty's shield. There is also light obv rim damage. Given the detail, the coin maintains some eye appeal despite the damage, but inspection is recommended.	EST	75-100	SE

LOT	U.S. COINS		VALUE	
51	1853 Seated w/ Arrows AU. Brightened at one time still an excellent "Arrows" type coin.	EST P	78-100	SE
52	1871 AU original w/ evidence of die clashing on obv & rev.	EST	50-62	SE
53	(4) Diff P-Mint incl 1837 No Stars G, 1853 No Arrows G, 1854 XF+ original, & 1872 AU perhaps lightly cleaned, still attractive. A nice group.	EST	115-140	SE

56	(4) Diff S-Mint better dates incl 1863-S VF+, 1864-S G, 1865-S VG, & 1866-S F. Mostly originals w/ typical marks and imperfections the series is known for. Half dimes circulated extensively in the western states in the 19th Cent. The coin hoarding that was brought about by the Civil War that virtually eliminated silver coins from everyday commerce for over a decade starting in 1861 was mainly an issue for the East and South. It was not nearly as prevalent in the western part of the country.	EST	220-260	SE
<b>Seated Dimes</b>				
57	1885 AU brightened earlier but still appealing.	EST	60-80	SE
<b>Barber Dimes</b>				
58	Binder w/ (147) in flips or 2x2s, marked by owner w/ year, condition and retail values totaling abt \$1500; ranges from 1892 to 1916-S w/ minor duplication, conditions from G to VF	EST	700-900	A
<b>Mercury Dimes</b>				
59	1916-D NGC VF Details Obv Scratched. A beautiful original coin. The scratch referred to is diagonal running from K2 to K8 on the obv, but it is VERY faint and is visible only in bright light or upon magnification. 1916-D Merc Dimes seem to come either high-grade or low-grade. Mid-grade coins of this issue are considerably more elusive. Inspect!	EST P	2,150-2,500	HWC-SE
60	1931-D ICG MS66 Full Bands. Beautiful mark-free surfaces, predominantly white w/ outstanding detail. Worth inspection.	EST P	440-520	HWC-SE

83	(25) Diff 1917 // 1930-S in a Whit 9017 folder grades generally VG to VF+. Fairly nice coins overall for a series in which collections, even partial ones, are never of any quality. <b>Bust Halves</b>				
89	1808 O-108 (R3) VF. 1808 is notoriously weakly struck.	EST P	170-220	SE

95	1822 O-104 (R3) F+ beautiful medium-grey original.	EST P	80-110	SE
96	1828 Square-based 2 O-109 XF+ lovely medium-grey original w/ excellent detail. Well worth inspection.	EST P	200-240	SE
97	1829 O-114 AU+ with an uneven toning pattern resulting from the way it was stored for many decades. Unfortunately, there are a few light hairlines on the coin indicative of an attempt to remove its beautiful natural toning that have resulted in some dark spots on the obv. Lovely even light golden on the rev.	EST P	180-230	SE
98	1832 O-117 (R4) VF perfect medium-grey original.	EST	90-115	SE
99	1833 O-102 XF lovely medium-grey original.	EST P	100-125	SE
100	1835 O-107 near XF by wear. Light grey.	EST P	94-120	SE
101	1838 Reeded Edge AU. Bright from an earlier cleaning, now re-toning. There is a mark at K9 on rev that looks like a planchet flaw upon magnification. Despite the flaws, this would still be a nice type coin for the series.	EST P	280-350	HWC-SE
102	1810 O-101 Fine & 1817 O-103a (no dot) Fine. Both coins are original but the 1817 shows some obv hairlines from a careless attempt to wipe away its natural toning.	EST	170-210	SE
103	1818 over 7 O-101 F+ few impairments, nice color, & 1829 VF nice original.	EST	150-180	SE
104	1819 O-113 VF & 1833 O-107 VF. Both coins are nice dark grey-brown originals. The 1819 has light circular scratches inside the stars on the obv and inside the lettering on the rev visible upon magnification.	EST	140-180	SE
105	(3) Diff incl 1824 Fine, 1825 VF dark toning, & 1826 Good.	EST	130-160	SE

LOT	U.S. COINS		VALUE	
106	1826 O-116a (R1) & 1831 O-104 (R1) both VF+ or better by wear but rather bright and shiny - no doubt the result of an amateur dipping effort. Nonetheless, 200-year-old half dollars should have a place in someone's collection, so inspect and bid accordingly.	EST	150-180	SE

115	1861-O AU. There are light obv hairlines under the lovely original grey color of this coin, but the rev is perfectly original, and it is very appealing to the eye. The 1861-O half dollar has always been of historical significance because of events occurring at the start of the Civil War. Of the entire mintage of 2,532,633 pieces, we know that 330,000 were minted while the New Orleans mint was still under Union control. But the State of Louisiana took over the mint for two months starting Feb. 1st 1861. During that time, an additional 1,020,000 coins were struck. The final production of 1,212,000 occurred after Mar. 25th 1861, the date that the CSA assumed control of the N.O. mint. Some of the specimens of this last group show diagnostic signs, one of which is very weak drapery from Liberty's elbow. This coin shows that weakness; therefore, the opinion of this cataloger is that this coin is among the CSA issues.	EST P	300-375	SE

159	1893-S ANACS VF30 Details Cleaned. Grey color on surfaces that maintain an original appearance. The diagnostic die scratch on the T in LIBERTY is plainly evident. The 1893-S is a scarce coin in any grade - prohibitively so in AU or higher. The undisputed king of the Morgan \$1 series, the original mintage was only 100,000 the overwhelming majority of which entered circulation as silver dollars were used in daily commerce on the west coast during the time of this coin's striking. This offering presents an opportunity for the Morgan silver dollar specialist to acquire the series key in nice mid-grade condition.	EST P	4,200-5,000	HWC-SE
160	1894 NGC XF Detail Cleaned. The coin is a medium-grey color and there is no evidence of cleaning in this cataloger's opinion. It is a complete mystery why this coin did not straight-grade. The 1894 Morgan Dollar is a scarce coin that gets consistently overlooked by the 1893-S which runs about 8x the price. But the mintage of the 1894 is only 110,000 which is a mere 10,000 more than the 1893-S. It could be argued that they are about equal in overall scarcity.	EST P	550-700	HWC-SE

## SPECIAL NOTICE REGARDING COVID-19

At the time of catalog production we are still under statewide restrictions which prevent us from having in person attendance at our auctions. The auction has been moved to a live online auction on Stamp Auction Network. Please stay tuned to your email as well as our Facebook and Instagram pages for any changes in these restrictions.

We have been working extremely hard to add more photos of as many of the lots as we can. We will also give buyers the opportunity to have expanded descriptions and video viewing so that even from a distance, they can bid with confidence.

During these changing times we are doing our best to bring the hobby to collectors and give sellers an outlet to sell product. We will continue to adapt as we find new ways to serve both. Thank you for your continued support over the years and during this time.
