CONDITIONS OF SALE

Bidding

1. The placing of a bid will constitute acceptance of the conditions of sale.
2. All bids are per lot as numbered in the catalog. The right is reserved to withdraw any lot or lots and to group two or more lots.
3. Lots are sold to the highest bidder at one advance over the second highest bid. The auctioneer shall regulate the bidding and in the event of any dispute the auctioneer's decision shall be final.
4. The auctioneer shall not be liable for errors and omissions in executing instructions to bid.
5. Unlimited bids and bids believed not to be made in good faith will be respectfully declined.
6. Minimum bid on any lot is \$50.00.
7. All lots will be sold at the price for which they are knocked down by the auctioneer, plus a commission of 15%.

Payment of Purchases

8. Successful bidders will be notified of lots purchased and must remit before lots are delivered. Persons who are known to us may, at our option, have purchases forwarded for immediate payment.
9. Terms are immediate payment in U.S. funds on receipt of the invoice. Payment by credit card will be subject to a 2% service charge.
10. The mode of shipment shall be at our option unless we are given specific instructions. A minimum charge of \$1.50 will be made in addition to postage, insurance, and handling.
11. Successful bidders agree to pay for lots as specified above and no credit is extended. For overdue accounts a late charge of 5% per month (minimum \$30.00) will be charged. Accounts are considered overdue after (30) days.

Quality

12. Any lot, the description of which is incorrect, is returnable within ten (10) days of receipt and must be received within four weeks from the date of the auction. All disputed lots must be returned intact in the condition received. The following lots may not be returned without prior approval: lots from buyers who have had the opportunity to examine them before the sale; lots described as having defects or faults may not be returned because of faults; and, lots in which the buyer has bid more than double our estimate. No illustrated lot may be returned because of centering, margins, or other factors shown in the illustrations.

Authenticity

13. All lots are sold as genuine, but should any lot be proved otherwise by written opinion of any responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided we are notified in writing within 14 days from date of sale that an opinion is being sought. If claim is not made within this period, no lots are returnable for any reason at any time. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$100.00. In the event an item is proved "not as described" it is returnable for a full refund. Any lot which has a certificate dated within the last five years is sold in accordance with the certificate and is not returnable for any reason including an opinion obtained in a new certificate after the sale. While we occasionally suggest what grade a coin may receive if certified, we do guarantee that grade (or any other grade) if a coin is submitted for certification.

INSPECTION OF LOTS

Inspection of lots is available by appointment. To aid the inspection, the code in the margin is as follows:

A=Album

LE=Large Envelope

L=Large Lots

B=Box

SE=Small Envelope

HWC=Ask to See

LOT	U.S. COINS		VALUE	
Half Cents				
1	1794 G detail but uniformly corroded. Clearly identifiable w/ "94" of the date showing.	EST P	125-160	SE
2	1795 Plain Edge, No Pole perhaps VG by wear but plagued w/ typical early copper problems s/a light signs of abuse and foreign substance adherence. Nice enough to be identified and acceptable for the issue.	EST P	135-170	SE
3	1797 "1 above 1" variety VG details and heavily corroded but easily identifiable.	EST P	125-150	SE
4	1802 over 0 rev of 1802. G detail, even dark brown and still attractive. There is a 2.5mm lump behind Liberty's ear which may be a plugged hole. This blends well with the coin's natural color making it acceptable for this very scarce issue.	EST P	260-350	SE
5	1804 Plain 4, Stemless Wreath near VF detail on an even brown planchet but the coin is slightly bent.	EST	70-100	SE
6	1808 nice even brown VG w/ 180-degree die rotation.	EST	100-120	SE
7	1810 F even brown w/ significant die rotation.	EST P	90-115	SE
8	1811 perhaps VG detail w/ a very clear date but too much surface damage to consider for anything other than a filler.	EST	70-100	SE
9	(7) Diff Draped Bust 1800 // 1807 low-grade damaged coins dominate the group but all details are clearly identified.	EST	175-210	SE
10	(10) Diff Classic Heads 1809 // 1835 gen G to VG+ but typical early copper damage dominates. Loose in a small bag from an old Delaware estate.	EST	200-250	BAG
11	(8) Diff Braided Hair in a straight run 1849 // 1857 (no half cents in 1852). In a Whit 9400 album, most perhaps VG to VF but expect typical early copper coin damage and impairments.	EST	100-120	A
Large Cents				
12	1793 Flowing Hair Chain Cent Fr-2. Unusual to see another chain cent similar to Lot 3 of the previous auction but the estate of origin actually had two of them! Once again extensive wear prohibits determining the exact Sheldon variety (Chain Cents can be S1, S2, S3 or S4), but the chain is clearly visible and, amazingly, the coin has very little corrosion. Rare by any standard, Bowers estimates that only 800 to 1,100 Chain Cents survive in ALL grades.	EST P	1,300-2,000	SE
13	1794 Liberty Cap S-44 Fr-2. The rev is virtually gone but there are enough obv details for identification. S-44 is indicated by the position of the numerals of the date and the prominent die crack running through the 7.	EST P	125-150	SE
14	1795 Liberty Cap S-78 AG	EST P	125-150	SE
15	1796 Liberty Cap S-82 (R5) G Details w/ light damage and a planchet clip at K7. Scarce variety.	EST P	160-200	SE
16	1796 Draped Bust S-110 AG	EST P	125-150	SE
17	1797 Draped Bust S-137 Good. This coin shows a very late die state w/ ERICA obliterated by a large rev cud. The rev is about 5% off-center as well. Date and legends all very clear despite the low grade.	EST P	150-180	SE
18	1797 Draped Bust S-139 G+. Well worn but that is the only drawback to the coin as date and legends are all clear and there is no corrosion.	EST P	160-200	SE
19	1803 Draped Bust Small Date; Large Fraction S-257 VG. There is a small (2mm) obv rim gouge at K10 o/w nice chocolate brown.	EST P	100-125	SE
20	1804 Draped Bust S-266C F Details Net G. Perhaps F+ details but pitted from corrosion. The obv cud above RTY of LIBERTY and the rev cud above AMERICA are plainly visible. (These are diagnostic for die state C.) Most of the reported mintage for 1804 was comprised of earlier dates. Bowers estimates that actual number of coins struck with the 1804 date to be about 60,000 of which only 750 to 1,000 remain today in all grades. This renders the 1804 the rarest cent of the 19th century.	EST P	1,200-1,600	SE

LOT	U.S. COINS	VALUE	
21	1812 Classic Head Large Date (S-288) PCGS XF40. A beautiful coin given the scarcity of Classic Head large cents in higher grade. Though not rare by any means, this variety is the scarcest of the (4) for 1812.	EST P 1,400-1,650	SE
22	1857 Large Date N1 VF or very nearly so.	EST P 115-140	SE
23	(4) Diff Draped Bust incl 1797 S-137, 1798 S-169, 1800 S-196, & 1801 S-224 all low grade but discernable.	EST 160-200	SE
24	(6) Diff Draped Bust incl 1798 S-182??, 1802 S-232 w/ cud, 1803 S-258, 1805 S-267, 1806 S-270, & 1807 S-274. All are low grade but identifiable. Great lot for the variety collector.	EST 180-230	SE
Flying Eagle Cents			
25	1857 ANACS AU55 Details "Glue Residue". The coin was probably taped into a folder at one time and some of the tape adhesive remains on the obv. (With expertise, this is usually removable w/o harming the coin.) Despite the problem, the strike is razor-sharp, and overall, the coin remains attractive.	EST P 160-200	SE
Indian Cents			
26	1877 G details w/ general planchet porosity and sev corrosion spots obv & rev. Date and central details are clear and the coin is ideal as a filler for a scarce date.	EST P 160-200	SE
27	1908-S F+ nice chocolate brown.	EST P 85-100	SE
28	1909 Indian MS63+ Red-Brown. Ample red on mark-free surfaces.	EST P 100-125	SE
29	1909-S F perfect even light brown original.	EST P 260-320	SE
30	(50) Diff 1857 // 1909 incl (8) duplicates (58 coins total) in an original green Whit album #9203 (1958 edition) complete 1878 thru 1909 (no S-Mints). Incl are (9) coins 1866 // 1879 G to XF a couple impaired. After 1880, many are full-LIBERTY VF or better originals. Worth inspection!	EST 240-350	A
31	(132) 1857 // 1909 w/ dup in (4) partially-filled Whit 9003 folders. Coins avg circ w/ a few better noticed incl 1864-L, 1867, 1868, 1870, 1872, 1873, & 1878 all G or less.	EST 155-190	B
Lincoln Cents			
32	1911-D MS63 Red-Brown. Included in this lot is a PCGS label showing this coin as having an "Altered Surface". However, the present describer can see no issues with the coin - surfaces and color of the coin seem perfectly natural. Bid accordingly.	EST P 100-125	SE
33	1931-S XF+ even brown w/ great eye-appeal.	EST P 75-100	SE
Two Cent Pieces			
34	1864 Small Motto AG. A truly choice low-grade specimen, well-worn but original w/ no other problems. TRUST is plainly visible revealing the scarce Small Motto variety.	EST P 100-125	SE
35	1872 Fair-2 perhaps a bit better. Ghost-like on both sides but the date is plainly visible. Last of the business strike issues for the Two-Cent Piece and very scarce.	EST P 115-140	SE
Three Cent Pieces			
36	1851 Silver AU58	EST P 125-150	SE
37	1879 (Nickel) lovely well-struck original VF+ or better.	EST P 80-100	SE
38	1882 (Nickel) Fine but w/ a few marks from blunt trauma. A better date in the series but inspection is recommended.	EST P 70-95	SE
39	1888 (Nickel) VG+ choice for the grade and a better date.	EST P 48-60	SE
Shield Nickels			
40	1883 Shield PCGS MS63 (OGH) a beautiful coin great for type.	EST P 150-180	SE
Liberty Nickels			
41	(30) Diff 1883 No Cents // 1912-D in a Whit 9007 folder missing only the keys 1885, 1886, & 1912-S. Most Grade G to F.	EST 80-95	SE
Buffalo Nickels			
42	1913 Type 2 NGC MS64 a few light imperfections. Sharply struck.	EST P 100-125	SE

Jefferson Nickels				
43	(213) 1938 // 2015 w/ Proofs after 1968 in (3) Littleton Albums LCA28, LCA29, & LCA72. Not a complete set but virtually so after 1946. Some earlies are circ but most are beautiful unc and proof.	EST	150-180	B
44	1948-D BU Roll. Lovely fully-struck coins w/ subtle golden color.	EST	100-125	HWC-ROLL
45	1950-D BU Roll. Lovely well-struck golden-toned originals.	EST	240-280	HWC-ROLL
46	(2000) Unc Jefferson nickels in rolls of (25) as made by retailer, based on end coins they are 2005 Buffalo and 2006 regular issue both P and D	EST	80-100	B
Half Dimes				
47	1796 Draped Bust "LIKERTY" variety near F detail by wear but w/ a 1.5mm rectangular hole below Liberty's chin. Despite the damage (most small silver coins of the early post-colonial period have multiple faults) the coin appears original, and stars, devices, legends, and the date (3 digits) show plainly.	EST	450-650	SE
48	(7) Diff Bust Type 1829 // 1837 AG to F w/ numerous impairments but original in appearance.	EST	125-150	BAG
49	(55) Diff Seated 1837 No Stars // 1873-S mostly common dates AG to F but many have some type of damage light to more severe. Housed in an LOC Vol 40 album.	EST	400-500	A
50	(4) Diff Seated better date/variety coins incl 1838-O No Stars AG+ cleaned still ok, 1840 Drapery AG, 1840-O No Drapery G, & 1840-O Drapery AG. Low grade but original except where noted.	EST	160-200	SE
Barber Dimes				
51	(60) 1892 // 1916-S in a tube most full-rim G/G+.	EST	100-125	HWC-ROLL
Mercury Dimes				
52	(76) Diff in a virtually complete set 1916 // 1945-S missing only the 1916-D key. In a Whit 9014 folder, earlies gen G to F, later better to a few AU+.	EST	210-260	SE
Roosevelt Dimes				
53	(48) in a complete set 1946 // 1964-D plus (20) add'l clads in a Whit 9029 folder. Earlies circ later better to unc.	EST	70-85	SE
Twenty Cent Pieces				
54	1875-S Fine detail but w/ a few light marks particularly around the rim.	EST P	110-135	SE
Bust Quarters				
55	1806 Draped Bust Fair-2+ extensive wear but no other problems worth mention. The date is clear and Liberty is well-outlined but flat. A bit less detail on the rev.	EST P	150-180	SE
Seated Quarters				
56	1861-S Fair-2 a nice original w/ extensive wear being the only issue. Not a bad example of a very scarce coin in the Liberty Seated Quarter series.	EST	200-260	SE
57	1866-S AG. Qualifies as a Choice AG if there is such a thing. A beautiful original w/ perfect color and no faults other than honest wear.	EST P	200-250	SE
58	1883 NGC Proof 64. Monochrome deep grey w/ reflective mirror surfaces and exquisite detail.	EST P	700-850	SE
Barber Quarters				
59	1896 NGC MS65 medium bluish-grey. A few minor ticks on the cheek by the ear o/w very nice.	EST P	550-650	SE
60	1916-D AU58 subtle brown-gold toning.	EST P	130-160	SE

LOT	U.S. COINS	VALUE
Standing Liberty Quarters		
61	1916 lovely original grading G on the obv and VG+ on the rev. A choice coin for the grade with virtually no blemishes or imperfections other than wear. Enough of the date shows for easy identification (though this issue can usually be identified even if the date is worn off.) A paltry mintage of just 52,000 coins in Dec 1916 (after millions of the Barber design were issued throughout most of 1916) resulted in this issue being a rarity in the Liberty Standing series. The unique design details of the 1916 Liberty Standing Quarter caused wear to be extensive after just a small amount of circulation, which likely had something to do with the slight change in design for 1917. Even coins certified as VF and XF are apt to be disappointing in overall appearance. It is a pleasure to lot an aesthetically pleasing coin of this issue even if the grade is somewhat low.	EST P 2,600-3,200 SE
62	1917 Type 1 PCGS MS64 Full-Head. Lovely light golden color. A real beauty that could have graded higher.	EST P 550-650 SE
63	1923-S Good. An appealing original coin that really grades Fine in overall detail, but because the date only shows one digit clearly (luckily its the "3"), the grade must be assessed as a Good. It takes a lot of searching to find this issue in this grade, so if you are seeking to build a Liberty Standing Quarter set in low grade, you should seize this opportunity.	EST P 210-250 SE

74	1865 PCGS XF40 beautiful dark grey original. Ample mintage of 511,400 but Bowers notes that his issue is scarce. The current cataloger believes this Philadelphia issue is seen less often than its San Francisco counterpart.	EST P 470-550 SE

109	1893-S G+. The king of the Morgan Dollar series. The coin is an even light grey w/ a full G+ obv perhaps a bit weaker on the rev. There is a very old rev scratch on the coin (resembling one that would be made by a file or small saw.) A 5mm segment starts at K10:30 and runs parallel to the left wing. Another longer segment starts at the arrow feathers and runs to the rim at K6. The segments blends well to the coin's overall color and are not aesthetically as bad as they sound. The authenticity of the coin is verified by the tell-tale engraver's line in T of LIBERTY.	EST P	1,500-1,800	SE

Peace Dollars				
127	1921 AU The periphery is well struck but the central details of the coin are impressed. There are curious raised areas of the eagle's wing that look to be the result of a strike anomaly not damage. In the 1960s, 1921 Peace Dollars were scarce, but the higher prices of today have coaxed quite a few out of hiding. The high relief of this issue makes it a popular one-year type coin. MISCELLANEOUS

Error Coins

248	2000 Lincoln Cent over-struck on the planchet on a previously struck Roosevelt Dime. Most wrong planchet errors involve coins being struck on BLANK planchets meant for other denominations. However, this 2000 Lincoln Cent was struck over what was previously a normally-struck Roosevelt Dime. The Red Book notes that these types of errors are "of much greater value" than those struck on blank planchets. On the this coin, edge-reeding is present and the "sandwich" clad composition is plainly evident. The under-types of the Roosevelt Dime are clear on the obv and rev as well as the date. A very interesting coin!	EST P	200-250	SE
