CONDITIONS OF SALE

Bidding

1. The placing of a bid will constitute acceptance of the conditions of sale.
2. All bids are per lot as numbered in the catalog. The right is reserved to withdraw any lot or lots and to group two or more lots.
3. Lots are sold to the highest bidder at one advance over the second highest bid. The auctioneer shall regulate the bidding and in the event of any dispute the auctioneer's decision shall be final.
4. The auctioneer shall not be liable for errors and omissions in executing instructions to bid.
5. Unlimited bids and bids believed not to be made in good faith will be respectfully declined.
6. Minimum bid on any lot is \$50.00.
7. All lots will be sold at the price for which they are knocked down by the auctioneer, plus a commission of 15%.

Payment of Purchases

8. Successful bidders will be notified of lots purchased and must remit before lots are delivered. Persons who are known to us may, at our option, have purchases forwarded for immediate payment.
9. Terms are immediate payment in U.S. funds on receipt of the invoice. Payment by credit card will be subject to a 2% service charge.
10. The mode of shipment shall be at our option unless we are given specific instructions. A minimum charge of \$1.50 will be made in addition to postage, insurance, and handling.
11. Successful bidders agree to pay for lots as specified above and no credit is extended. For overdue accounts a late charge of 5% per month (minimum \$30.00) will be charged. Accounts are considered overdue after (30) days.

Quality

12. Any lot, the description of which is incorrect, is returnable within ten (10) days of receipt and must be received within four weeks from the date of the auction. All disputed lots must be returned intact in the condition received. The following lots may not be returned without prior approval: lots from buyers who have had the opportunity to examine them before the sale; lots described as having defects or faults may not be returned because of faults; and, lots in which the buyer has bid more than double our estimate. No illustrated lot may be returned because of centering, margins, or other factors shown in the illustrations.

Authenticity

13. All lots are sold as genuine, but should any lot be proved otherwise by written opinion of any responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided we are notified in writing within 14 days from date of sale that an opinion is being sought. If claim is not made within this period, no lots are returnable for any reason at any time. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$100.00. In the event an item is proved "not as described" it is returnable for a full refund. Any lot which has a certificate dated within the last five years is sold in accordance with the certificate and is not returnable for any reason including an opinion obtained in a new certificate after the sale. While we occasionally suggest what grade a coin may receive if certified, we do guarantee that grade (or any other grade) if a coin is submitted for certification.

LOT	U.S. COINS		VALUE	
Colonial Coins				
1	New Jersey 1788 Head Right NGC XF Detail - Corrosion. All design elements show but significant corrosion indicates that the coin has been excavated.	EST P	300-400	SE
2	Rosa Americana 1723 copper 2 pence (KM# 11), NGC graded XF 40	EST P	600-700	SE
Half Cents				
3	1835 Classic Head MS60 Brown w/ some orig red showing in the recessed areas. Small (1mm) corrosion spot b/w stars 9 & 10.	EST P	160-200	SE
Large Cents				
4	1794 Head of '94 S-24 NGC Fine Details - Damaged. Nice chocolate brown w/ decent detail for the issue, but there are numerous "pits" on the coin thus the grade. Still appealing for a Liberty Cap cent.	EST P	450-550	SE
5	1798 2nd Hair Style S-173 ICG G4 Detail - Corroded, Scratched. The variety is indicated by a rather large rim break over RTY of LIBERTY. There is some corrosion, but the scratch is minor.	EST P	70-90	SE
6	1802 1/000 S-228 NGC F Details - Env Damage. Likely excavated, still nice detail.	EST P	200-260	SE
7	1803 Lg Date; Sm Fraction S-250 NGC VF Details - Corrosion. Excellent detail but w/ uniform light to medium corrosion	EST P	260-350	SE
8	1807 Lg Fraction S-276 NGC Fine Details - Environmental Damage.	EST P	160-200	SE
9	1810 over 9 S-281 PCGS AU50. Slightly mottled even brown w/ excellent detail. A beautiful example of the classic over-date that shows boldly. An important coin among the Classic Heads seldom encountered in high grade as the price guides infer. Great opportunity for the large cent specialist.	EST P	4,200-4,800	SE
10	Feuchtwanger Cent (1837) VG. Lewis Feuchtwanger produced a metal that was nickel, copper, & zinc. He lobbied Congress to use the metal to make small-sized one-cent pieces, but the metal was never adopted. However, his 1¢ and 3¢ trial pieces circulated widely in the subsequent period 1837 to 1845.	EST P	75-100	SE
11	1844 over 81 N2 (2) coins both abt VG. A popular over-date.	EST	100-125	SE
12	1857 Braided Hair Lg Date N-1 VF light chocolate brown original.	EST P	120-145	SE
13	(7) Diff 1794? // 1805 incl 1794? Poor (no rev detail), 1795, 1797, 1798, 1800, 1802, & 1805. Coins are all low-grade but largely discernable. Expect a few blemished, corrosion, etc. Nothing too great to look at but, except where noted, the dates are there.	EST	125-175	SE
14	(4) Diff Classic Heads incl 1808 S-278, 1811 S-287, 1812 S-288, & 1814 Crosslet 4 S-294. All are very low grade but corrosion is minimal and the coins are easily attributed.	EST	160-200	SE
15	(15) Diff 1816 // 1829 incl 1816 N8, 1817 N6, 1818 N5, 1819 N6, 1820 Lg Overdate N1, 1820 Small Date N4 (R4), 1821 N1, 1822 N12 (R4), 1823 N1, 1824 N2, 1825 N7, 1826 N6, 1827 N11, 1828 N11, & 1829 N2. Grades gen G+ to F w/ minor problems consistent w/ early copper.	EST	260-330	SE
16	(11) Diff 1817 // 1853 gen low-grade to perhaps F.	EST	90-115	SE
17	(30) Diff 1830 // 1856 incl some varieties housed in an LOC Vol 38 'Large Cents Part 2 1821 - 1857'. Grades mostly VG to VF some w/ minor impairments typical of copper coins of the period.	EST	380-450	A
Indian Cents				
18	1859 Indian Cent VG detail w/ obv struck about 5% off-center, AND the coin shows major die rotation. Perhaps not rare as such but interesting nonetheless, especially considering that the 1859 Indian Cent is a one-year type coin.	EST P	50-80	SE
19	1862 NGC MS62 (old small-font holder). Interesting 45-degree die rotation.	EST P	170-210	SE
20	1863 MS60 some light hairlines but nice eye-appeal.	EST P	85-110	SE
21	1872 XF or better detail but w/ uniform light corrosion on the surfaces.	EST P	220-270	SE
22	1906 MS63 Red. The grade may be even higher. Full red color.	EST P	135-165	SE
23	1908-S Fine. Nice chocolate brown.	EST P	80-95	SE
24	(47) Diff 1857 // 1909 arranged in a Whit 9003 folder missing 1866 // 1872, 1877, 1908-S & 1909-S circ grades a few nicer here and there. Incl a 64-L G+.	EST	135-170	SE
25	(8) Diff some better date/cond incl 1858 SL F, 1862 F, 1863 XF, 1871 F+ lightly cleaned, 1901 AU, 1906 AU, 1907 AU, & 1908-S F. A nice group of Indians.	EST	300-350	SE
26	(50) all 1909 Indian Cents (1 roll) in a coin tube most G to F+.	EST	85-110	BAG
27	(300) 1900 // 1909 avg circ	EST	250-300	B
28	(300) Generic Indian Heads most 1900 // 1909 some earlier avg circ.	EST	260-330	B
Lincoln Cents				
29	1922 Weak D Die 3 ANACS F12. Poorly struck reverse consistent with the Weak D variety, but there is more detail on the obv than most F12-graded Lincolns have.	EST P	160-200	SE

LOT	U.S. COINS		VALUE	
30	1931-S Unc Details. Acceptable, but the color is a bit unnatural from an earlier cleaning.	EST P	80-100	SE
31	1972 Double Die Obv MS60+ Brown. Die #1 FS-101. Die #1 has the most dramatic doubling on this popular variety. Ample original red still shows in the recessed areas.	EST P	210-250	SE
32	(2) Certified incl 1945-S PCGS MS66+ Red & 1948 NGC MS66 Red.	EST	64-80	BAG
33	(2,000) old Wheat Cents all dated 1909 to 1929-S avg circ. Quite a few are mintmarked.	EST	145-180	B
34	Double-wide red long box full of (252) BU Lincoln Cents in 2x2s, 1961-1970-S, obvious duplication, unsorted	EST	70-90	L
Two Cent Pieces				
35	1869 XF+ perhaps better. Even light brown.	EST P	70-85	SE
Liberty Nickels				
36	1899 PCGS MS62	EST P	80-95	SE
37	(33) Diff in a complete set 1883 NC // 1912-S housed in a Whit 9407 album, earlies gen AG/G, a few later a bit better. (1885, 1886, & 1912-S all Fr/AG but appear original.)	EST	300-360	A
Buffalo Nickels				
38	(65) Diff in a complete set 1913 // 1938-D (no 3-Legs) in a Whit 9408 album. Keys are AG/G but identifiable, others mostly G+ to F w/ a couple better. Inspect!	EST	330-400	A
Jefferson Nickels				
39	Abt (700) 1938 // 1955 arranged in tubes by date and mintmark circ grades. Over (30) 1939-D, but no 1950-D's or war nickels.	EST	75-100	B
5c Groups / Collections				
40	(175) Diff spanning 1889 // 1977 Incl (20) Diff Liberty 5c 1889 // 1912, (55) Diff Buffalo 5c (only the 9 keys missing), & (100) Diff Jefferson 5c complete from 1938 // 1977 all arranged in appropriate Whitman folders. Earlies circ, later a bit better to unc.	EST	90-115	BAG
Half Dimes				
41	1871 Seated Proof 62. Liberty is very frosty but a bit pebbled, a decidedly "watery" proof but loads of cameo contrast.	EST P	300-400	SE
Seated Dimes				
42	(4) Diff incl 1848, 1875-CC (CC Above), 1877, & 1878. Grades F to VF+. A nice group.	EST	80-115	SE
Barber Dimes				
43	1895 XF. Tricky to grade because this issue was not well-struck. Still a nice coin for a low-mintage (690,000) semi-key in the series.	EST P	330-400	SE
44	(74) in a complete set 1892 // 1916-S housed in a Whit 9412 Album, most keys and semi-keys are Fr/AG but nice originals, the balance are gen G to F+ w/ a few a bit better.	EST	550-700	A
45	(100) 1892 // 1916-S most full-rim G/VG.	EST	190-240	BAG
Mercury Dimes				
46	(20) Diff all MS60 to MS64 full-bands coins incl 1916, 1916-S, 1929-D, then sporadic from 1937 to 1945-D. There is nothing more aesthetically pleasing than a white, full-struck Mercury Dime.	EST	500-650	LE
47	(12) 1936 // 1944 w/ minor dup most nice unc (a couple AU+) and virtually all with full split bands.	EST	160-200	SE
48	(76) Diff 1916 // 1945-S in a Whit 9413 album missing only the 1916-D & overdates. Earlies mostly G to F w/ a couple VF (21 AG, 21-D nice G+), later a bit better to near unc.	EST	200-250	A
Roosevelt Dimes				
49	(90) Diff 1946 // 1980-S complete set incl proofs after 1968 arranged in a Whit 9587 album, most are nice BU incl sev semi-keys. Expect some toning but many white coins as well.	EST	200-250	A
50	(4) Sets 1946 // 1964-D (192 coins) in albums/folders mostly circ coins. Also incl are some misc clad pieces.	EST	260-300	BAG
Twenty Cent Pieces				
51	1876 Uncirculated detail, but rather harshly cleaned w/ a myriad of residual hairlines. The is so much detail on this coin that it may very well be a proof. The 1876 is a semi-key among 20c pieces with a mere 14,750 business strikes minted. The proof mintage is 1,150.	EST P	450-600	SE
Bust Quarters				
52	1818 B-2 VG nice original. This variety has the large obv die crack showing above the head of Liberty into stars 8 thru 10. There is also significant die clashing on this issue with the rev scroll plainly visible right above the date.	EST P	130-160	SE
53	1821 B-3 Fine. Lovely deep grey original.	EST P	210-250	SE

LOT	U.S. COINS		VALUE	
54	1828 B2 (R4) G+ evenly worn but there are a few light scratches in the L obv field. All large-size bust quarters are scarce, but particularly so for this variety of 1828.	EST	100-125	SE
Barber Quarters				
55	1894 Proof 60+. A nice white coin w/ exquisite detail, 63+ on the rev, but the obv shows more evidence of handling w/ a few residual hairlines.	EST P	360-430	SE
Washington Quarters				
56	1938 Proof likely PR64. White, w/ a small amount of cameo contrast on the obv. A few hairlines, still very nice. (Formerly in sale #282.)	EST P	80-110	SE
57	(34) Diff 1932 // 1945-S avg circ a few better in a Whit 9018 folder (Washington Quarters #1). \$8.50 90% silver	EST	125-150	SE
58	(78) Diff in a near-complete set 1932 // 1963 housed in an LOC Vol 15 album missing only 32-D, 32-S (the album only goes to 1963-P). Earlies gen G to F, later avg circ to BU. A few cleaned.	EST	300-360	A
59	(83) Diff in a complete set 1932 // 1964-D in (3) Whit folders. Earlies gen G to F (32-D G, 32-S AG), later avg circ to AU.	EST	400-480	BAG
State Quarters				
60	(6) Statehood Quarter Proof Sets 2004 // 2010 missing only 2008 all in GI pack.	EST	110-135	B
61	(56) Sets incl all the state quarters P & D, plus the 2009 territories packed in US Mint FDCs postmarked w/ the date of the coin's release. Nice presentation.	EST	54-70	B
Bust Halves				
62	1808 over 7 O-101 Fine. The over-date shows clearly.	EST P	160-200	SE
63	1811 Small 8 O-111a F+ beautiful original grey.	EST P	120-145	SE
64	1812 O-104 near VF w/ nice peripheral toning. Graded by the rev as many 1812's have poorly struck obverses.	EST P	120-145	SE
65	1813 O-108 (R3) near VF. The distinguishing feature of this coin is Liberty's distinct double profile. What appears to be rim damage is actually the result of the edge inscription being too close to the obv die. A late die state w/ the obv crack connecting stars 1 thru 4 just beginning to show.	EST P	145-180	SE
66	1817 O-103 Fine. This is the popular 181.7 variety, plainly visible on the present coin.	EST P	155-180	SE
67	1824 over 4 O-109 NGC XF Detail - Obv Scratched. There are some light scratches on Liberty's mouth, nose, and cheek, but they are old and blend into the coin's color (darker grey) perfectly.	EST P	250-300	SE
68	1825 O-112 VF perhaps a bit better. Nice original grey but there is a bit of light graffiti in front of Liberty's face.	EST P	66-80	SE
69	1826 O101a VF attractive eye-appeal. For decades, numismatists assumed that Bust Halves were used only by the commercial banks of the day to hold reserves and had little use in actual commerce. But that view is now changing as result of more in-depth research by numismatic scholars such as Roger Burdette and Robert Julian. While half dollars did represent significant purchasing power in the first half of the 19th Century, they were produced by the millions, and many survive in rather worn condition - clear evidence that these coins did play a significant role in day-to-day transactions, similar to the role that a higher denomination bill such as a \$50 plays today.	EST P	64-80	SE
70	1829 O-115 NGC Unc Details - Cleaned. Unevenly toned, w/ only slight evidence of the cleaning.	EST P	575-700	SE
71	1831 O-102 XF lovely darker-grey original.	EST P	125-150	SE
72	1832 O-122 XF+ beautiful deeper-grey original.	EST P	140-180	SE
73	1833 O-112 NGC MS61 medium grey-brown and well struck.	EST P	750-1,000	SE
74	1834 Small Date; Small Letters O-116 VF+ even medium grey.	EST P	110-130	SE
75	1834 Small Date; Small Letters O-120 (R4) XF+ lovely medium grey.	EST P	120-145	SE
76	1836 O-105 PCGS VF30	EST P	90-115	SE
77	1837 Reeded Edge NGC AU Details - Cleaned. Dipped no doubt, but spared a harsh cleaning. Still an attractive coin w/ interesting rev die cracks.	EST P	300-360	SE
78	1838 Reeded Edge NGC AU Details - Cleaned. This coin should have straight-graded. Very attractive w/ grey/brown champagne toning. There is an interesting rev die crack on the left side lettering. The winning bidder will be pleased with this coin.	EST P	330-400	SE
79	(4) Diff incl 1809 O-115, 1810 O-101, 1823 O-104, & 1824 over 4 O-110. Grades G to VF by wear but impaired to varying degrees incl scratches, plugged holes, etc. Inspection recommended.	EST	100-125	SE
80	(10) Diff in a Whit 9415 album "Bust Type Halves 1807 // 1839" incl 1817 O-106 (R5), 1820/19 O-102, 1826 O-105, 1828 Sq 2, Lg 8's O-108, 1829 O-117, 1832 SL O-107, 1834 LD O-105, 1835 O-110, 1836 Let Edge O-115, & 1838 Reeded Edge. Grades AG to VG by wear but sev are damaged, mostly scratches, plugged holes, extensive wear, etc. Inspection recommended.	EST	200-300	A

147	(4) Fractional Gold Tokens round and octagonal dated 1857, 1861, 1880, and one undated. Though not regular issues per se, these tokens were made widely by private jewelers of the day. In time, they became a national fad and were sold coast to coast. But their denominations made them susceptible to fraudulent use, and the government...finally determined that they violated the Private Coinage Act of 1864, leading to their total suspension by 1883." 149	1849 Type 1 Open Wreath - No L Unc Details Cleaned. A beautiful example of the inaugural year for this issue, well struck w/ a couple of stars boldly re-punched (diagnostic for the No L) and a rev die crack rim to rim going through the "1". The only issue is that residual hairlines mar the overall appearance. The "No L" variety lacks the designer's initial L (for Longacre) on the truncation of the Liberty's bust. Sources state that only about 1,000 pieces were struck before production was halted. Mint Director Robert Patterson was worried that the relief was too high (a concern that later proved unfounded.) This issue is much rarer than the "With L" counterpart though many No L's were saved given that the gold dollar was a new gold denomination for the United states and these were the first issues off the press. Here's a chance to own a piece of numismatic history for what amounts to a small premium over the more common issue.	EST P 400-550 SE

175	"1855" Kellogg \$50 Commemorative Restrike PCGS Gem Proof. These coins were created as souvenirs of the treasure recovered from the SS Central America (lost at sea on Sept 12th 1857). Authorized by the California Historical Society, mintage was limited to 5,000 pieces. Struck from authentic Kellogg & Co. dies in a proof finish w/ heavy cameo contrast, each coin was created from Kellogg and Humbert ingots recovered during the excavation of the shipwreck. The obverse depicts a head of Liberty facing left by Ferdinand Gruner, with stars around and the date below. The reverse shows a standing eagle with inscription surrounding. The tiny imprint above the eagle's head shows the striking date and the CHS initials of the California Historical Society. The weight is 1,309 grains of .887 fine gold (identical to the ingots themselves) for a total of 2.419 ozt AGW. A handsome display box accompanies the coin describing it in detail. 184	1904 Lewis & Clark \$1 AU lightly cleaned. Charles Barber designed this coin with the famous explorers on either side rendering the determination of obv & rev debatable. (The date is normally on the obv and that is the side with Meriwether Lewis.) They were struck for the Lewis & Clark Exposition held in Portland OR in 1905 to celebrate the 100th anniv. of the event. Records indicate that 10,025 were sold to the public from an initial mintage of 25,000. The remaining 14,975 were returned to the mint and melted. Of those sold, many were lost or melted at a later time. They are rather scarce today and rarely offered.	EST P 360-450	SE
185	1905 Lewis & Clark \$1 AU lightly cleaned w/ a couple obv & rev scratches indicative of possible mount or bezel removal. See comments for the previous lot. From an initial mintage of 35,000 records indicate that 10,041 were sold to the public, the remaining 24,959 were returned to the mint and melted. Many were later lost from carelessness or melted for the gold value.	EST P 380-470	SE
186	1916 McKinley \$1 Gold XF detail. A myriad of small scratches are present on both obv & rev. Struck in 1916 and 1917 and sold to raise money for a Birthplace Memorial to the slain president to be located in his hometown of Niles, OH. (McKinley was shot Sept 6, 1901 while attending the Pan American Exposition in Buffalo NY by an unemployed wire mill worker and self-proclaimed anarchist named Leon Czolgosz. He died eight days after the shooting. After being arrested, Czolgosz pleaded guilty and claimed that, "...I do not believe that one man should have so much service while another man should have none." He was put to death for the crime on Oct 29th, 1901 by a recent innovation in criminal justice called the electric chair.) In 1916, 20,000 McKinley commemorative gold dollars were struck; in 1917, an additional 10,000 all bearing that date. Of the 10,023 later melted, Breen wrote that they were all dated 1916. However, modern researchers doubt this claim since there are far more of the 1916 issue in the marketplace (compared to 1917), especially in the circulated and low mint state grades.	EST P 250-330	SE

(They are all large-size notes as this bank did not issue small size currency.) 2nd Charter date backs were issued from 1908 to 1922 as a result of the Aldrich-Vreeland Act. This act was passed May 30, 1908 in response to sudden withdrawals of currency from banks during the financial panic of 1907. The act allowed for the creation of a supply of emergency currency to meet the need for liquidity in a crisis. The interesting thing is that THIRD Charter Red Seal Nationals had been in circulation since 1902. Why this act, passed in 1908, was satisfied with the older-style 2nd charter design is one of several mysteries in the production of paper currency in the US.	EST P	280-400	SE
