## CONDITIONS OF SALE

### Bidding

1. The placing of a bid will constitute acceptance of the conditions of sale.
2. All bids are per lot as numbered in the catalog. The right is reserved to withdraw any lot or lots and to group two or more lots.
3. Lots are sold to the highest bidder at one advance over the second highest bid. The auctioneer shall regulate the bidding and in the event of any dispute the auctioneer's decision shall be final.
4. The auctioneer shall not be liable for errors and omissions in executing instructions to bid.
5. Unlimited bids and bids believed not to be made in good faith will be respectfully declined.
6. Minimum bid on any lot is \$50.00.
7. All lots will be sold at the price for which they are knocked down by the auctioneer, plus a commission of 15%.

### Payment of Purchases

8. Successful bidders will be notified of lots purchased and must remit before lots are delivered. Persons who are known to us may, at our option, have purchases forwarded for immediate payment.
9. Terms are immediate payment in U.S. funds on receipt of the invoice. Payment by credit card will be subject to a 2% service charge.
10. The mode of shipment shall be at our option unless we are given specific instructions. A minimum charge of \$1.50 will be made in addition to postage, insurance, and handling.
11. Successful bidders agree to pay for lots as specified above and no credit is extended. For overdue accounts a late charge of 5% per month (minimum \$30.00) will be charged. Accounts are considered overdue after (30) days.

### Quality

12. Any lot, the description of which is incorrect, is returnable within ten (10) days of receipt and must be received within four weeks from the date of the auction. All disputed lots must be returned intact in the condition received. The following lots may not be returned without prior approval: lots from buyers who have had the opportunity to examine them before the sale; lots described as having defects or faults may not be returned because of faults; and, lots in which the buyer has bid more than double our estimate. No illustrated lot may be returned because of centering, margins, or other factors shown in the illustrations.

### Authenticity

13. All lots are sold as genuine, but should any lot be proved otherwise by written opinion of any responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided we are notified in writing within 14 days from date of sale that an opinion is being sought. If claim is not made within this period, no lots are returnable for any reason at any time. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$100.00. In the event an item is proved "not as described" it is returnable for a full refund. Any lot which has a certificate dated within the last five years is sold in accordance with the certificate and is not returnable for any reason including an opinion obtained in a new certificate after the sale. While we occasionally suggest what grade a coin may receive if certified, we do guarantee that grade (or any other grade) if a coin is submitted for certification.

SE=Small Envelope

HWC=Ask to See

LOT	U.S. COINS		VALUE	
<b>U.S. COINS</b>				
<b>Half Cents</b>				
1	1826 Classic Head near XF w/ mostly original color. Displays full 180-degree die rotation.	EST P	85-110	SE
<b>Large Cents</b>				
2	1794 Liberty Cap Head of 94 S-46 near VF detail but as is frequently the case, there are a few planchet defects that lower the coin's net grade (to perhaps VG?) Though loaded w/ detail, the obv shows pitting in the center, the rev has a 10mm lamination mark from the rim by the "D" in UNITED moving thru the wreath and extending to the "O" in ONE. Despite the damage, this is still a desirable coin and a nice example of early copper.	EST P	300-450	SE
3	1795 Liberty Cap Lettered Edge S-75 Good. On this variety, the S of the date overlaps the bust of Liberty and becomes difficult to see clearly on worn specimens. However, there are enough diagnostics remaining to determine that it is indeed an S-75.	EST P	200-300	SE
4	1801 Draped Bust S-224 VF Detail w/ uniform moderate corrosion over the entire coin.	EST P	100-125	SE
5	1802 Draped Bust S-228 (Fraction 1/000) near VF detail w/ 5mm obv planchet flaw after Y in LIBERTY and a significant rev rim bump at the 1st T in STATES. This is the famous variety w/ the erroneous fraction 1/000 on the rev. On this coin, most of this fraction is obliterated by a weak strike on the rev @ K6-9, however the variety can be identified by other diagnostics. Even chocolate brown color, excellent detail, and nice overall.	EST P	125-150	SE
6	1803 Draped Bust Sm Dt; Sm Fraction S-253 VF detail w/ moderate corrosion and some light pitting on the surfaces typical of early copper.	EST	95-115	SE
7	1805 Draped Bust S-267 VF Detail light pitting and minor rim damage still a nice chocolate brown.	EST P	100-125	SE
8	1807 Draped Bust Large Fraction S-276 F detail w/ uniform corrosion. As is often the case w/ S-276, there is significant die rotation.	EST P	90-115	SE
9	1814 Classic Head Plain 4 S-295 VF (or better) detail, but uniformly corroded. Undoubtedly an excavated coin, with a bit of work it could be made presentable.	EST	160-200	SE
10	Feuchtwanger Cent (1837) VF. Lewis Feuchtwanger proposed a new alloy for cent production made of nickel, copper, & tin, but the alloy was never adopted. However, his trial pieces circulated widely in the 1837 to 1845 period. We offer a nice VF specimen here. See the pic!	EST P	110-135	SE
11	A pair of Liberty Cap Large Cents incl 1794 S-24 Fr/AG minimal rev detail o/w sound, and 1795 S-77 G Details w/ some corrosion.	EST	150-200	SE
12	Trio of Draped Bust Large Cents incl 1797 S-131 AG Corroded, 1798 S-186 (rev die crack prominent) Fr/AG, & 1800 (S-200?) VG Details - Damaged. Inspect for a better assessment.	EST	125-150	SE
13	(4) Diff Classic Heads incl 1808 S-279, 1810 S-283, 1813 S-293, & 1814 Plain 4 S-295. Low grades but corrosion is minimal and the coins are easily discernable.	EST	180-250	SE
14	(40) Diff 1808 // 1856 in a Whit 9110 album, grades largely VG to VF w/ typical early copper defects. Earlier are on the lower end, later a bit better.	EST	450-600	A
15	(6) Diff Late Dates incl 1847 XF (dark), 1849 XF (whizzed), 1851 XF, 1852 XF+, 1854 XF, & 1855 Up 5's VF+. Nice originals except where noted.	EST	160-200	SE
<b>Flying Eagle Cents</b>				
16	1858 Large Letters XF+ light tan color and quite attractive for a flying eagle cent.	EST P	125-150	SE
<b>Indian Cents</b>				
17	1864 (L on ribbon) AU+ or better by wear but surfaces are environmentally damaged and show light uniform corrosion. Loads of detail still present so it may be worth consideration for this scarce issue.	EST P	110-135	SE
18	(4) Diff incl 1859 F+, 1863 VF+, 1906 AU, & 1908-S VG+.	EST	115-140	SE
19	(53) Diff in a near-complete set 1857 // 1909 missing only 1872, 1877, & 1909-S. Housed in a Littleton LCPC Archival Quality folder, earlier gen AG to VG w/ a couple showing light damage, later mostly VG to F+. (1908-S Fine) Inspect!	EST	230-280	BAG
20	(250) 1881 // 1909 avg circ. A few culls but most are 20th cent G to F.	EST	170-220	B
21	(300) 1900 // 1909 avg circ.	EST	260-330	BAG
<b>Lincoln Cents</b>				
22	(85) Diff in a nearly-complete set 1909 // 1940-S. Missing the keys and a few of the semi-keys s/a 09-S & 11-S, but incl are most other early S-Mint coins, 24-D nice F+, & 31-S XF. Earlier gen VG to VF, later gen F to XF. All are nice orig brown making it an attractive partial set.	EST	180-240	A
23	(3) Double-wide red long boxes jam packed w/ (750+) Lincoln Wheat cents in old 2x2s w/ year and condition, VG to BU, not in order, spot checked 1910s-50s w/ much 1917-21 & 1940s-50s (lacks 1930s)	EST	130-160	L

LOT	U.S. COINS		VALUE	
<b>Three Cent Pieces</b>				
24	1876 (Nickel) ANACS MS62 fairly well struck.	EST P	180-230	BAG
<b>Buffalo Nickels</b>				
25	1913-D T2 near XF detail but almost completely brown from environmental exposure.	EST P	50-65	SE
26	1918/7-D ANACS AG3 Details Acid Treated. Though the coin has been acid treated (to reveal the date), it has quite a bit of detail for an AG3 grade. A great choice for the collector not wishing to pay the steep price of a straight graded coin. Worth inspection.	EST P	170-220	BAG
27	1937 NGC MS66 beautiful golden color.	EST P	42-50	BAG
28	1938-D over D NGC MS65 w/ beautiful light golden toning.	EST P	56-70	BAG
29	(25) Diff 1913 T1 // 1931-S wide grade range G to a few VF or better, plus a 1938-D (AU). In flips or 2x2s.	EST	115-140	LE
30	(119) in a pair of nearly-complete sets 1913 // 1938-D held in (2) Whit 9008 folders. The first set (62 diff) missing only 13-S T2 & 21-S, the second set (57 diff) missing the obvious keys plus 14-S, 18-S, 20-D & 21-S. Grades gen G to F+, a few weak dates where expected, but many are full 4-digits, even among the earliest. A lot well worth inspecting.	EST	320-450	BAG
31	(2) PCGS-Graded MS65 incl 1936-D & 1936-S.	EST	110-135	BAG
<b>Half Dimes</b>				
32	1840 Seated No Drapery AU58 strong detail but w/ light handling marks and a 2mm gouge in the right obv field by star 10. Still desirable.	EST P	160-200	SE
<b>Bust Dimes</b>				
33	1805 4 Berries perhaps G+/VG by wear but there is light damage and a 2mm hole behind Liberty's head at stars 5 & 6. The date and bust are fairly strong. (Problem coins are the norm for most early dimes.)	EST P	200-300	SE
34	1820 Small 0 JR-11 Fine. An eye-appealing coin, and a scarce variety as indicated in the authoritative reference on Bust Dimes by Davis, Logan, Lovejoy, McClosky, & Subjack.	EST P	100-125	SE
35	1821 Lg Date JR-6 VF detail and attractive overall, but surfaces are a little "fuzzy".	EST P	120-150	SE
36	1823 Large E's JR-3 F+ original. Nice coin.	EST P	170-220	SE
37	1824 4 over 2 JR-1 Fine.	EST P	180-230	SE
38	1830 Lg 10¢ JR-6 beautiful original AU.	EST P	290-360	SE
39	1831 JR-1 VF natural grey.	EST P	80-100	SE
40	1833 High 3 JR-5 XF nice original but there is an old scratch going across the rev.	EST P	150-180	SE
41	1834 Lg 4 JR-5 XF a nice coin.	EST P	160-200	SE
42	1835 JR-1 VF+ lovely original color.	EST P	100-125	SE
43	(9) Diff in a Dansco 6121 Album "Bust Dimes 1796 - 1837" incl the following: 1814 Large Date JR-3 VG, 1823 JR-3 G, 1827 JR-13 F, 1829 Sm 10¢ JR-7 VG+, 1830 Lg 10¢ JR-6 VF, 1832 JR-4 G+, 1833 JR-4 F+, 1834 Lg 4 JR-5 VF, & 1836 JR-1 VF. Most original grey, a very attractive group seldom offered.	EST	500-650	A
<b>Seated Dimes</b>				
44	1837 No Stars Large Date VG perfect grey original. Dimes were the first coins of the Seated Design to be released in 1837. Based on the British depiction of Britannia, the design was considered superior to the earlier Capped Bust coins, and judging by newspaper articles of the day, was well-received by the American public.	EST P	60-75	SE
45	1837 No Stars Small Date attractive original grey VG. A nice coin for the grade. Author Brian Greer, who wrote the book "The Complete Guide to Liberty Seated Dimes" in 1992, has opined that the Small Date version of the No Stars variety is a bit scarcer than the Large Date. This is consistent with the present cataloger's experience.	EST P	60-75	SE
46	1853 No Arrows F. Even original grey. 95,000 Seated Dimes were produced at the old weight standard of 2.67 grams in the first couple of months of 1853 before the rising price of silver forced a nearly 7% reduction in weight (to 2.49 grams.) The weight reduction was denoted by adding arrows to the date. Over 12 million of the new lighter-weight coins were struck for circulation, being desperately needed to replace the heavier coins that were being hoarded for their metallic value. Thus, the No Arrows version of 1853 represents less than 1% of the mintage for that year.	EST P	250-300	SE
47	1853 Arrows near AU well-struck w/ hair and facial detail in Liberty which is often lacking on Seated Dimes.	EST P	95-120	SE
48	1854-O VF w/ an interesting small planchet clip at K8. A nice coin.	EST P	80-100	SE
49	1854-O AU or very nearly so. There is some rev strike weakness on the arrow feathers and the eagle's left leg and claw.	EST P	135-165	SE

LOT	U.S. COINS	VALUE	
50	1856 Large Date VF nice original. Greer states that of the 5,780,000 dimes minted in Philadelphia in 1856, only 150,000 are of the Large Date variety. However, it's actual frequency of appearance has led more recent researchers to estimate it's mintage at about 400,000. Still a scarce coin, particularly compared to its Small Date counterpart.	EST P 80-100	SE
51	1871-CC G details but w/ a 2.5mm hole @ K11 o/w nice original grey. All Carson City dimes from 1871 to 1874 are classic rarities. Bowers notes that they are highly prized in any state of preservation. In Greer's "Complete Guide to Liberty Seated Dimes", it is noted that "the 1871-CC dime is a great rarity and one of the keys to the series." Clearly the scarcity of this issue is not exaggerated as the Greysheet bid price (Feb 2024) for one in just Good-4 condition is \$3,000!	EST P 800-1,000	SE
52	1887-S AU+ a beautiful original w/ hair and facial detail, and a full rev wreath, which Bowers notes is often missing on this issue. Greer lists it as a common date but difficult to find fully-struck especially on the head of Liberty.	EST P 100-125	SE
53	(6) Diff O-Mint scarcer dates AG to VG incl 38-O No Stars, 42-O, 45-O, 49-O, 50-O, & 56-O.	EST 200-240	SE
54	(40) Diff 1839 // 1891-S in a Dansco 6122 album commons to slightly better coins, a few lower-grade but most F+ to XF originals. Highlights: 1841, 1847, 1850, 1854, 1856 SD, 1857-O, 1858, 1862, 1884, 1884-S, & 1890 all higher grade. Inspect!	EST 600-800	A
<b>Barber Dimes</b>			
55	1893-O F+ nice even original grey.	EST P 64-80	SE
56	1895-O Good. A bit weak on the rev at K9-10 o/w a choice original. The key to the Barber Dime series. Nice even grey color.	EST P 330-400	SE
57	(69) Diff in a near-complete set 1892 // 1916-S housed in a Dansco 7121 album missing only 93-O, 95-O, 1900-O, 07-D, & 10-S. Wide grade range but most are nice F or better and a few commons go up to full AU+. Highlights: 92-S, 94-O, 95, 95-S, 96-O, 96-S, 97-O, 01-S (Fr/AG), 03-S, & 13-S are all G/G+ unless otherwise noted. 92, 04, 06-D, 08-D, 11-D, 12, 13, & 16 are all XF+ or better. A set well worth inspecting.	EST 600-750	A
<b>Mercury Dimes</b>			
58	1916-D AG original by wear. There is a significant gouge on the obv at K6 and a smaller one at K9 w/ corresponding marks on the rev. The gouges occurred long ago and have blended into the coin's color and wear pattern perfectly. Not that it matters much, but of the four mintmark positions for genuine 1916-D dimes, the placement and mintmark shape on the present offering is consistent w/ die #4. Of historical note, the 1916 production of Mercury Dimes did not start until the 4th quarter. That would have limited production in any event. But further, the Denver Mint received an unusually large order for quarter dollars (4 million) in late November of that year. This required the superintendent of the Denver Mint to suspend the production of all other denominations but the quarter to fulfill this emergency need. (This is the reason for the large production of 1916-D Barber Quarters.) By the time production of dimes at Denver resumed, the 1917-D dies were on hand and were used for all subsequent issues. Thus, the 1916-D was minted only to the extent of 264,000 pieces. Though there are several Barber coins whose mintages are lower (in some cases far lower) than that of the 1916-D Mercury Dime, its perennial popularity, as well as that of the Mercury Dime series in general, have kept the demand and market value of this issue rather high for decades. As early as 1940, dealers were offering "uncirculated" 1916-D dimes for \$10 - a sharp contrast to the 85¢ price for a 1916-P, and a mere 60¢ for the 1916-S.	EST P 400-550	SE
59	1944-S NGC MS67 Full Bands. 1st gen "soap bar" holder w/ white NGC label.	EST P 135-160	BAG
60	(3) D-Mint PCGS- or NGC-Certified incl 1942-D MS65 (OGH), 1942-D MS67 (1st gen "soap bar" white label), & 1943-D MS65 Full-Bands (OGH).	EST 92-115	BAG
61	(76) Diff in a practically complete set 1916 // 1945-S in a Whit 9118 album missing only the 16-D, overdates & varieties. Earlier gen G to F (some commons are nice), later better to a few unc or very nearly so. (21 & 21-D both AG/G)	EST 240-300	A
<b>Roosevelt Dimes</b>			
62	(50) in a complete set 1946 // 1964-D plus (2) add'l silver. High grade circ and unc coins many very nice.	EST 84-100	A
63	(60) in a complete set 1946 // 1972 in a Whit 9414 album. All coins appear to be high-grade circs. (48) silver plus (12) clad.	EST 86-105	A
<b>Twenty Cent Pieces</b>			
64	1875-S near XF a few marks and light hairlines, still attractive and a nice coin for a mid-grade type set.	EST P 145-180	SE
<b>Seated Quarters</b>			
65	1876-CC AU. Uniform medium-grey over an old cleaning.	EST P 160-220	SE

81	(84) in a complete set 1932 // 1965 housed in a Whit 9418 Album, \$20.75 face 90% plus 32-D (G) and 32-S (VG). Circ grades w/ many F+ or better to AU. A worthwhile set.	EST	400-525	A
<b>State Quarters</b>				
82	(118) Statehood Quarter Sets consists mostly of 5-coin sets, some plated, that were heavily marketed by promoters touting their spurious "rarity". 85	1813 "50c over UNI" O-101 F nice original. A classic variety w/ the over-punch clear.	EST P	160-200	SE
86	1818 over 7 Large 8 O-101 VG bold over-date.	EST P	80-105	SE
87	1828 Sq 2, Small 8s O-115 VF dipped but still ok.	EST P	60-75	SE
88	1830 Small 0, O-115 nice VF.	EST P	70-90	SE
89	1831 O-113 (R4) near XF lovely original. A beautiful example of this issue were it not for two rev pin scratches traversing the eagle in the shape of an X. Virtually invisible w/o magnification, the scratches occurred long ago and do not interfere w/ the coin's natural grey color. For the 1831 Bust Half, author Don Parsley (who wrote the later editions of Al Overton's authoritative reference on Bust Halves) states: "... well-struck, well-preserved specimens of this date are not common." The added scarcity of the O-113 variety should make this offering even more appealing.	EST P	125-150	SE
90	1832 Sm Letters O-118 VF a rather uneven grey, still ok.	EST P	60-80	SE
91	1834 Sm Date; Sm Letters O-112 nice XF+ perhaps better natural white. A nice coin.	EST P	170-220	SE
92	1837 Reeded Edge AU. Numerous prominent die cracks on obv & rev. There are a few tiny rim hits on the rev K6-9.	EST P	320-400	SE

96	1844 XF+ nice original. There are 15 die varieties for this issue. This one shows strong re-cutting on the 8 in the date, and a fine rev die crack running from the edge to the eagle's neck at K2.	EST P	220-300	SE

LOT	U.S. COINS		VALUE	
97	1846-O nice VF perhaps a bit better.	EST P	100-125	SE
98	1872-S AU white w/ great detail. See the pic! (Ex. DE estate)	EST P	420-500	SE
99	1888 AU+ A few marks consistent w/ the grade o/w white and attractive. An excellent coin for this scarce issue with mintage of only 12,001. Some experts suggest that the 1888 is the easiest to obtain from the low-mintage years 1879 - 1890.	EST P	700-850	SE
100	1889 VF. An unusual coin in that half dollars from the 1879 - 1890 period generally saw light circulation leaving most surviving specimens in higher grade.	EST P	340-400	SE
<b>Barber Halves</b>				
101	1901-S VG+ original.	EST P	120-145	SE
102	1913 nice VG original. Only 189,000 produced of this issue, and the most difficult to come by of the three scarce dates 1913, 1914, & 1915, even though its has the highest mintage. If the 1913 Barber Half was as popular as the 1909-S VDB Lincoln Cent (a far more common coin), the value would easily be four-figures.	EST P	80-95	SE
103	1914 G+. Another scarce Barber Half with a mintage of only 124,000 at a time when coin use was at its peak and nothing was being hoarded by the public. Is it any wonder why over 95% of the Barber coinage is in a grade of G or below?	EST P	100-125	SE
104	1915 VG original. The last of the scarce late-issue Barber Halves with a mintage of only 138,000.	EST P	80-100	SE
105	(32) Diff 1892 // 1906-S no keys, mostly commons AG to VG+ and original. In a Whit 9420 Album (Liberty Head Halves 1892-1906), overall much better than that typically seen.	EST	460-575	A

<b>Walking Liberty Halves</b>				
108	1916-S G+ original.	EST P	85-110	SE
109	1918-S AU+ but dipped to a bright unnatural (though not unappealing) brilliance. Would still fit well in a high-grade set, so definitely worth a look.	EST P	220-300	SE

<b>Seated Dollars</b>				
118	1842 AU w/ remarkably proof-like surfaces, pure white from an earlier dipping which has rendered a few light hairlines similar to those acquired by proof coins when they are handled. Overall, a very nice coin great for type. (There is an interesting 3mm die bulge in the left obv field by Liberty's wrist. It does not impair the look of the coin at all.)	EST P	650-850	SE
119	1843 F+ natural medium-grey w/ a few darker areas on the obv at K10-11 and K 2-3. Still a nice coin. Bowers has opined that the 1842 to 1849 mintage of Seated Dollars were intended for domestic use unlike the 1840 - 41 issues which were intended for trade. There may be some validity to this suggestion for 1842 & 1843 because they are the most commonly found dates in the series, and they rarely come with chopmarks, the clear indicator of use in international trade.	EST P	320-380	SE
120	1847 Good a few minor rim taps but sound and original. Unusual to see Seated Dollars this worn.	EST P	210-250	SE
121	1871 with motto PCGS Fine Details - Cleaned. Still attractive.	EST P	220-270	BAG
122	1871 VF+ perhaps better. Not a particularly appealing coin due to its "look", but magnification reveals a lot of detail. Typical of the issue, the rev is a bit stronger than the obv.	EST P	320-400	SE
<b>Trade Dollars</b>

<b>Morgan Dollars</b>				
126	1878 8 Tail Feathers MS60+ white. A lovely MS63 were it not for a swath of diagonal hairlines in the left obv field and thru Liberty's cheek.	EST P	170-220	SE
127	1878 8 Tail Feathers Round Breast AU. A nice coin for this variety which gets pricey in any higher grade.	EST P	80-100	SE
128	1878-CC VF+ unoriginal surfaces but acceptable.	EST P	115-140	SE
129	1879 MS63+ blast white. A nice coin for this issue which carries a premium in MS63 and above.	EST P	120-145	SE

134	1883-CC G+ a few imperfections but a nice original.	EST P	80-100	SE
135	1883-CC ANG5 MS68. Off-brand slab with a laughable grade - coin is actually abt MS62 perhaps slightly better, white and attractive.	EST P	220-270	BAG
136	1884-CC (GSA) lovely pure white MS63 w/ box and papers.	EST P	250-320	BAG
137	1886-S Unc detail w/ some light brown toning over lightly cleaned surfaces.	EST P	210-250	SE
138	1888-O the famous "Hot Lips" variety VAM-4. Only grades G+ but nice and original w/ the doubling on the nose, lips, and chin plainly evident.	EST P	80-100	SE
139	1888-S VF+ medium grey brown.	EST P	88-110	SE
140	1890-CC VG+ nice original grey but there is a circular shallow gouge on Liberty's cheek.	EST P	80-95	SE
141	1891-CC G+ perfect original grey. A beautiful coin for one w/ considerable wear.	EST P	75-100	SE
142	1891-CC F perfect natural medium grey.	EST P	105-135	SE
143	1891-O AU58. Surfaces appear unnatural suggesting that the coin was dipped at one time, but the strike is excellent for this issue which often comes w/ poorly-defined central details.	EST P	135-160	SE
144	1892-CC Fine brightened but no hairlines.	EST P	160-200	SE
145	1892-O AU predominantly white w/ lots of remaining mint luster.	EST P	125-150	SE
146	1892-S VF perhaps brightened still attractive. There is a shallow 5mm scrape on the jaw still ok.	EST P	100-140	SE
147	1893 VF. Scarce date but the coin has a few marks and is cleaned.	EST P	210-260	SE
148	1893-CC VG+ brightened and has a few light marks, still ok.	EST P	300-360	SE
149	1893-S Good. A light grey perhaps from a cleaning long ago. The coin maintains a natural appearance, and given that this issue is the key to the Morgan Dollar series, it would be a nice addition to most collections.	EST P	2,400-2,800	SE
150	1895-O VG a medium grey but the coin has an old cleaning.	EST P	160-200	SE
151	1895-O VG+ perhaps a bit better. A few marks but overall a satisfactory coin.	EST P	250-300	SE

206	1911 Indian AU. A good candidate for type. Though beautiful and popular, St. Gaudens design for this coin is a curiosity - an Indian headdress or war bonnet is placed on a depiction of Liberty that, unlike the Quarter Eagle and Half Eagle of the same period, is a far cry from a native American. 224	Lafayette Dollar (1900) MS60 or very nearly so. A few marks and an earlier dipping but the coin has regained some attractive peripheral toning. Lafayette Dollars are quite scarce in true mint state. This coin displays fairly strong central details on the rev - an area poorly struck on most specimens. As mentioned in the these pages in the past, all Lafayette Dollars were struck on Dec 14th 1899, the 100th anniversary of George Washington's death.
