Dear Valued Customer,

We hope this message finds you well. We are writing to inform you of an important change regarding the distribution of our auction catalogs.

In order to manage the rising operational costs, particularly due to inflation, we have made the difficult decision to discontinue mailing printed catalogs. This change will help us continue to keep commission rates at their current levels, without the need for an increase. Over the past several years, we've observed that most of our customers now access catalogs online, making this shift a natural and necessary step.

For those of you who still prefer a printed catalog, we will be offering a subscription service. The format of the printed catalogs will be streamlined to reduce production and mailing costs but will still provide the key information you rely on for our auctions. Subscription information will be forthcoming, and we will ensure it is as easy as possible to sign up for those who wish to receive a printed catalog.

We understand that this change may require some adjustment, and we are here to assist you with any questions or concerns. Please don't hesitate to contact us for further details or assistance.

Thank you for your understanding, continued support, and trust in us. We look forward to bringing you many more exciting auctions in the future, while working to keep your costs and commissions as they are.

Warm regards,

Russell Eggert

EXPANDED DESCRIPTIONS

If you desire more information about any lot our staff would be happy to provide additional details & scans—as much as practical; just call (or write) at least 10 days or more before the sale.

NOTES

(1) Minor separations in multiples and sheets are to be expected in older issues; a few open parts do not adversely affect value and do not constitute reason for return.

(2) Gum line and lt. gum creases are normal characteristics of U.S. flat plate issues; these will be described only when unusually pronounced.
